International Journal of
Project Management

The ***International Journal of Project Management*** is devoted to the publication of papers which advance knowledge of the practical and theoretical aspects of project organization. The Journal aims to: provide a focus for worldwide expertise in the required techniques, practices and areas of research; present a forum for readers to share common experiences across the full range of industries and technologies in which project management is used; cover all areas of project management from systems to human aspects; and link theory with practice by publishing case studies and covering the latest important issues in special series.

Contributions Authors should submit articles to the journal online at http://ees.elsevier.com/jpma where full instructions can be found. Notes for Authors are also available at www.elsevier.com/locate/ijproman
